The Division received a letter from IAPMO requesting that this committee reconsider their recommendation to the Commission on the review of the Uniform Plumbing Code. Following a discussion by all present, it was agreed that the review is a substantial change to the process right now and the recommendation is that the review not be done at this time but to go forward with the 2009 IPC. The plumbing industry has voiced their opinion that they wish to stay with the International Code for this cycle and make a review after this year's cycle.

Jeff Pedersen asked the committee to review Section 312.9 Shower liner test and give him a recommendation as to who is ultimately responsible. It was agreed that this is a contract issue, not a code issue.

Jeff Pedersen voiced his support of the committee's recommendation to the Uniform Building Code Commission.

A motion was made by Kerry Cramer that this committee is making a recommendation to approve the 2009 International Plumbing Code and the plumbing provisions of the 2009 International Residential Code subject to the current amendments and new provisions. The motion was seconded by William Green and passed unanimously.

Gilbert Gonzales asked the committee to consider what a reasonable recommendation would be for an adoption date. William Green made a motion to make a recommendation to the Commission that the 2009 codes be adopted with an effective date of July 1, 2010. The motion was seconded by Kerry Cramer and following a discussion, the motion was amended to say no later than July 1, 2010. The amended motion passed unanimously.
