

Application Process

To apply to Utah using one of the licenses deemed equivalent (jurisdictions in green on the above map), you must have held the license type indicated on the map for at least one year. Additionally, the license must be active and in good standing.

In addition to a complete application for licensure and the appropriate fees, you must also submit an official verification of your license. If you have been subject to previous disciplinary actions on any professional license or answer yes to any of the questions found on the qualifying questionnaires within the application, you will be required to provide additional information regarding those incidents. See the application for complete instructions.

Additional Requirements

For jurisdictions that do not meet the minimum requirements for endorsement outlined in 58-1-302, applicants may still be able to use their current license to satisfy some of the requirements for licensure. In addition to a license verification from the jurisdiction, see the information below needed to correct deficiencies in endorsement for specific states or territories.

Contractor Licenses: Responsible Individual

Jurisdictions identified in light blue issue a contractor license with scope and qualifications similar to the Utah Master Plumbing license. If you can demonstrate that you were the responsible individual who met the requirements for licensure on behalf of the contractor, you may qualify for endorsement.

| Jurisdiction | Additional Items/Information Required |
|-----------------------------|--|
| American Samoa | Provide documentation of experience and exams required for Tradesman Certificate via official American Samoa Verification |
| Guam, Puerto Rico, and USVI | Provide official documentation that outlines scope of license and exam content. |
| Mississippi | Provide documentation of experience and exams required for a Plumbing Contractor that illustrate proficiency in the plumbing trade. This should include an official verification of your Mississippi license, as well as documentation of jobs/hours specific to the plumbing trade. |
| Oregon and Washington | Provide documentation of passing exams similar to Utah Master Plumber Exams. |
| South Carolina | Provide documentation of experience and exams required for a Commercial Plumbing Contractor that illustrate proficiency in the plumbing trade. This should include an official verification of your South Carolina license, as well as documentation of jobs/hours specific to the plumbing trade. |

Jurisdictions with no equivalent State or Territory-Wide License:

If no equivalent state or territory-wide license is issued by a jurisdiction, local jurisdiction licenses (such as those issued by a city or county) or non-equivalent state or territory licenses may be used to assist with documentation of compliance with some Utah qualifications. Applicants must submit a verification of the license they feel may demonstrate components of Utah qualifications that includes documentation of hours, exams, and other qualifications completed to obtain the license. Additionally, providing information regarding the scope of the license will assist the Division in determining equivalency.
