General Information

2. Rule or section catchline:

R156-1. General Rule of the Division of Professional Licensing

3. Purpose of the new rule or reason for the change:

These amendments incorporate additional license types into the Division's inactive and renewal procedures, including those amended or newly added by 2024 S.B. 26, S.B. 112, or H.B. 530, and clarify unprofessional conduct provisions.

4. Summary of the new rule or change:

First, the Section R156-1-305 list of licenses that may be placed on inactive status is updated to include APRNs, certified nurse midwives, and physical therapists (which were missing from the list), and to add the new professions of certified prescribing psychologist, master addiction counselor, and school psychological practitioner.

Second, Section R156-1-308a charts are reformatted in their entirety just to make them wider/more legible per new OAR filing standards. The following substantive changes are also made: Subsection R156-1-308a(1), which establishes DOPL's standard two-year renewal dates for licenses, is amended to add the following: associate clinical mental health counselor, associate marriage and family therapist, associate master addition counselor, certified prescribing psychologist, eyelash and eyebrow technician, eyelash and eyebrow technology school, licensed behavioral health coach, licensed school psychological practitioner, master addiction counselor, provisional prescribing psychologist, and state certified behavioral health technician. "Music therapist" (wrong name) is deleted and added back in as "state certified music therapist." Subsection R156-1-308a(2), which establishes DOPL's non-standard license terms and renewal or extension cycles, is amended to delete licenses that no longer apply here, and to add a two-year term for a psychology resident that may be extended for a period not to exceed two years past the date of completion of the minimum supervised experience requirement.

Third, Section R156-1-501 Unprofessional Conduct is amended as follows: Deletes as unprofessional conduct from Subsection R156-1-501(7) violating a term, condition, or requirement in a Utah Professionals Health Program diversion agreement or program contract, because the unprofessional conduct of "violating the terms of an order governing a license" is already covered by statute in Subsection 58-1-501(2)(a)(xv). Adds into Subsection R156-1-501(7) "failing to comply with an investigative subpoena or an order regarding an investigative subpoena" to clarify that these actions constitute unprofessional conduct for a licensee.

Fourth, because of restructuring in the Division of Professional Licensing (Division), Section R156-1-502 Administrative Penalties is amended to update references to the managers who may authorize a deviation from the standard citation procedures.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:

A) State budget:

These amendments are not expected to create a cost or savings impact to the state budget because the amendments are technical in nature and simply update the rule to incorporate certain licenses into existing Division procedures in accordance

with recent statutory changes and clarify unprofessional conduct provisions, and the amendments can be initiated within the Division's current workload and resources.

B) Local governments:

These amendments will not impact local governments because they are made in accordance with recent statutory changes and are technical in nature and consistent with existing Division procedures.

C) Small businesses ("small business" means a business employing 1-49 persons):

These amendments will not impact small businesses because they are made in accordance with recent statutory changes and are technical in nature and consistent with existing Division procedures.

D) Non-small businesses ("non-small business" means a business employing 50 or more persons):

These amendments will not impact non-small businesses because they are made in accordance with recent statutory changes and are technical in nature and consistent with existing Division procedures.

E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an *agency*):

These amendments are not expected to impact other persons because they are made in accordance with recent statutory changes and are technical in nature and consistent with existing Division procedures.

F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

As described in boxes 5C, 5D, and 5E, no compliance costs are expected for affected persons.

G) Regulatory Impact Summary Table (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)
